

Fast Curing

Easy Application

Trafficable in 24 hours

Shower proof in 30 mins

Fast - Easy - One coat

The flat roof waterproofing system that's fast and easy to install. ▲

Liquid Waterproofing

A single component rapid curing polyurethane liquid membrane that is easy to apply over existing roofing systems, creating a durable and seamless waterproof layer.

Detail Coating

An non-drip, fibre reinforced liquid used for roof detailing, including upstands, pipe collars and internal corners.

Primer

An easy to apply, polyurethane primer used to seal and promote adhesion of the system to most substrates.

Walkway

Can be used in conjunction with Quartz Aggregate (0.4-0.8mm) to create a hard wearing, slip resistant coating over many surfaces, such as balconies and walkways.

CLASSIC LIQUID WATERPROOFING

ClassicLiquid®
Liquid Waterproofing

KEY FEATURES

Fast

Single coat application

Durable

Excellent weather &
UV resistance

Weatherproof

Fast curing &
showerproof in 30 mins

Complete protection

Seamless finish

Flexible

Remains elastic down
to -40°C

Easy

Self levelling

Joint Mastic

A joint sealant that adheres to most substrates, it is perfect for creating a fillet on 90° angles e.g. upstands, skylights, pipework etc. as well as filling minor blemishes in substrates.

Thickening Additive

A unique additive for Liquid Waterproofing, developed for use on severely inclined, uneven or completely vertical substrates.

Reinforcing Fabric

For fully reinforcing the ClassicLiquid system over bituminous surfaces. Available in 1m x 25m rolls.

Self Adhesive Tape

A self adhesive tape developed to seal board joints in most substrates prior to the installation of the ClassicLiquid system. Available in 75mm x 10m rolls.
